D.I.Y. Installation Steps

Sweep and wash surface of balcony area.

Place planters, as per plan.

Place shrubs, perennials and annuals, as per plan.

Remove plants from nursery pots, keeping in place.

Loosen root ball gently with your hands.

Fill planter boxes with Parkwood® Enriched Potting Mix, lifting shrubs up to ensure soil goes under the root ball.

Ensure that there is approx. 3-4" of room below planter top, to allow for effective watering.

Fill around each plant with Parkwood® Enriched Potting Mix and press firmly to secure in place. Add perennial grasses and annuals to empty areas, as per plan.

Water the boxes with Parkwood® Transplanter/water mixture to reduce shock, as per package.

Place table, chairs and statue, as per plan.

Fertilize monthly with Parkwood® All Purpose Plant Food to ensure maximum growth.

*Even the smallest balconies can offer a much needed escape from the inside world. Relaxing with a great book or enjoying your view will renew your spirit and refresh your perspective.

Visit the nursery to pick up many fabulous accents and accessories to dress your new space!
